E Wikipedia?

<https://www.sixdegreesofwikipedia.com/>

The image shows a screenshot of the website 'Six Degrees of Wikipedia'. The background is a solid light blue color. In the top right corner, there are three links: 'About | Blog | GitHub'. The main heading is 'SIX DEGREES OF WIKIPEDIA' in a serif font, with a small globe icon between 'DEGREES' and 'OF'. Below the heading, the text 'Find the shortest paths from' is displayed. There are two light yellow input boxes with black borders. The first box contains the text 'Fluid dynamics' and the second box contains 'Flat Earth'. Between these two boxes is the word 'to'. Below the input boxes is a red button with the text 'Go!' in white. The background also features faint white geometric shapes, including a line graph on the left and a network graph on the right.
